Frequently Asked Questions

[DELIVERY](#)

[PAYMENTS](#)

[PRODUCTS](#)

[PRICES](#)

[CUSTOMS](#)

[RETURN POLICY](#)

What countries do you deliver your products?

We deliver to USA only.

How long does the delivery take?

Delivery takes 9-18 days from Ukraine and 11-20 days from Russia.

What are your delivery rates?

Delivery rate is \$3.45 per 1 carton. Please note that we have a handling fee of \$7.00 per order.

Are the mailing times shown on site guaranteed?

No. Air Mail delivery can be affected by mailing problems in the destination US state. But we meet mailing problems so rare that no statistics can be made out of this.

If I place an order on Saturday, when my order will be sent?

When we receive orders we guarantee to ship them in 2 working days

(usually it takes not more than 36 hours). Orders placed on Thursdays are processed on Fridays and shipped on Mondays. Orders placed on Fridays, Saturdays and Public Holidays are processed on the first working day after reception and shipped on the second day. The day and time when your order was packed and shipped you'll receive by special e-mail. Please, notice that we do not ship orders within 24 hours to give you a possibility to change or update your postal address and/or the order items. In such cases you must immediately send us an e-mail with your changes. Please don't forget to quote your order number when writing about changes in your order.

What do you mean under word "parcel"?

Parcel is a package with maximum volume of 6 cartons (or 8 cartons in rare cases) packed into a special carton box for your cigarettes to reach you in a perfect condition.

Do you deliver by any couriers? (e.g.: DHL, UPS, TNT, etc.)

No. We work with the European AirMail only.

Can I track my order?

No, as the parcels are sent by AirMail there are no trackings.

What happens if I am not at home when the parcel arrives?

There are two possibilities:

- 1.The parcel can only be delivered to the addressee or to another person (e.g. a member of the family, a colleague, a porter, etc.) who will sign a receipt. If no-one is at home, a postman will leave a note
- 2.The parcel can be taken from your local post office with no additional charge. Please note that this standard procedure may slightly differ from state to state.

TOP

What payment methods do you accept?

We accept Credit Cards (Visa) and eChecks.

Can I pay by postal order or money order?

No. Unfortunately we accept credit cards and eChecks only.

Can I place an order by telephone or Fax?

No. You can place your order online only.

How to pay by check?

Payment by check is a processing service that allows customers to pay for cigarettes over the Internet by check without the need to mail a check. To pay by check please follow the below steps: Get your checkbook. Pull out the next valid check. Copy all information from that check to the last checkout form. Press the "Complete Purchase" button on the last checkout form and wait for the confirmation screen. Write void on your check and keep it with your printed receipt. Make sure to record an entry in your check register for the amount of this check and the check number. You will see this transaction in your monthly bank statement soon.

What is your Chargeback policy?

We will not tolerate credit card chargebacks and any customer

attempting or threatening to do this will be immediately barred from making any future purchases on this website as well as having their card blacklisted among processors. If there is a problem we will always seek a solution resulting in either a refund or a reship in line with our structured reship and refund procedure.

TOP

Do you sell other brands of cigarettes in addition to those advertised at your site?

No. The only brands we sell are shown on the Top of the pages.

Are the cigarettes sold at Cigarettes-Planet.com first choice?

The cigarettes sold at Cigarettes-Planet.com are of the highest quality available on the market made under the authorisation of worldwide known tobacco manufacturers. We sell brands made in Europe.

Do I have to pay a fee to join Cigarettes-Planet.com?

No, you do not, the access to our site is free, you don't need to pay a fee to enter it or to make your purchases.

Is there any difference between the American and the European made cigarettes?

Yes. The first are made to match the taste of American smokers while the second are suited to European tastes. Philip Morris does not provide any other information on this matter. According to smokers (and suggestions), the European ones may be slightly stronger. There is only one way to find out. Try them!

TOP

All the prices listed in our store are in US dollars and the amount charged from your credit card must be equal to the amount for cigarettes bought.

Shipping cost - \$3.45 per carton
Handling cost - \$7.00 per order

Why are the prices of the cigarettes sold at Cigarettes-Planet.com considerably more competitive than your competitors?

We purchase bulk amounts of cigarettes from the manufacturers and we limit our choice to a few selected brands. The products reach our customers without additional steps and the procedure is extremely rational.

TOP

Do you guarantee that no duty will be paid world-wide?

No, we don't. Some countries may occasionally not apply the international postal regulations and standards.

If you finally got in the situation of having to pay taxes you can do the following:

-you can pay taxes and pick up the parcels

-you can reject the parcels and ask for money back. The cigarettes will be sent back and we guarantee to make the refund minus shipping and handling charges as soon as it reaches us.

Is smoking duty-free cigarettes against the law?

No. Duty-free cigarettes can be smoked anywhere in the world. These cigarettes are sold in all International airports.

Is reselling duty-free cigarettes against the law?

Yes. This is against the law in all countries world-wide.

The cigarettes on sale at Cigarettes-Planet.com are for **personal use only** and not for resale.

Can Cigarettes-Planet.com disclose data on who bought cigarettes online to others?

Absolutely not. All personal Information in the Cigarettes-Planet.com web site will be treated according to the National Law. The data could not be disclosed even upon an official request submitted by foreign country authorities.

TOP

British American Tobacco, the world's most widely distributed tobacco brand with a presence in 180 countries, is pushing for the Indexation of the local tax brackets and prices under the existing excise tax scheme for cheap cigarettes to raise more revenues for the government and at the same time level the playing field.

In a statement, British American Tobacco said it supports a plan to eliminate the discrimination between the brands and existing brands by reclassifying all brands before the Indexation of applicable taxes to inflation.

"BAT is prepared to support a multitiered specific tax system that is indexed to inflation in both the tax brackets and the applicable tax rates thereon with the provision for automatic indexation across all brands thereafter because it will help achieve the government's additional revenue targets," the company said.

At the same time, the cheap cigarette maker pointed out that the indexation of both the tax brackets and prices would spread the additional tax burden equitably across the different players in line with their respective share of the price segments.

"British American Tobacco further supports the government's desire to significantly improve its tax revenues from cigarettes and we reiterate our willingness to contribute our fair share of the tax burden in this effort," the company added.

British American Tobacco employs almost 85,000 people worldwide and some of its brands include Lucky Strike, Dunhill, Kent, Pall Mall, State Express 555, Capri and Vogue.

In the Philippines it is registered as a foreign corporation actively engaged in the importation and distribution of cigarettes.

The cigarette maker furthermore sought for the scrapping of Revenue Regulation 9-2003 and 22-2003 implemented by the Bureau of Internal Revenue (BIR) last year allow all players to operate on a level playing field.

"For the new law to be absolute fair and just, the government must also nullify the revenue regulations reclassifying new brands in 2003 and imposing on them higher taxes while leaving existing brands untouched," the company argued.

British American Tobacco pointed out that the Philippines would continue to offer cheap cigarettes if the excise tax scheme evolves into less number of tiers in order to simplify the tax administration while improving both government revenues and market value.

"Currently, the Philippines has one of the lowest prices of cigarettes. If the gap in tax rates between the highest tax category of P13.4 per pack and the lowest category of P1.12 per pack remains wide at 12 times as in the present tax structure, the prices of cigarettes will continue to be low, the group added.

Republic Act 8240 otherwise known as the Comprehensive Tax Reform Program of 1997 changed the excise taxation on tobacco and alcohol products to specific system from value-based. It imposed a four-tier specific system based on the retail price wherein cigarettes with a net retail price of less than P5 per pack are levied P1.12 per pack while a pack worth between P5 and P6.50 is charged another P5.60. On the other hand, cigarettes with a net retail price of between P6.5 and P10 per pack are levied P8.96 while those above P10 are taxed P13.44. buy online cigarettes

British American Tobacco, the world's most widely distributed tobacco brand with a presence in 180 countries, is pushing for the indexation of the local tax brackets and prices under the existing excise tax scheme for cheap cigarettes to raise more revenues for the government and at the same time level the playing field.

In a statement, British American Tobacco said it supports a plan to eliminate the discrimination between the brands and existing brands by reclassifying all brands before the indexation of applicable taxes to inflation.

"BAT is prepared to support a multitiered specific tax system that is indexed to inflation in both the tax brackets and the applicable tax rates thereon with the provision for automatic indexation across all brands thereafter because it will help achieve the government's additional revenue targets," the company said.

At the same time, the cheap cigarette maker pointed out that the indexation of both the tax brackets and prices would spread the additional tax burden equitably across the different players in line with their respective share of the price segments.

"British American Tobacco further supports the government's desire to significantly improve its tax revenues from cigarettes and we reiterate our willingness to contribute our fair share of the tax burden in this effort," the company added.

British American Tobacco employs almost 85,000 people worldwide and some of its brands include Lucky Strike, Dunhill, Kent, Pall Mall, State Express 555, Capri and Vogue.

In the Philippines it is registered as a foreign corporation actively engaged in the importation and distribution of cigarettes.

The cigarette maker furthermore sought for the scrapping of Revenue Regulation 9-2003 and 22-2003 implemented by the Bureau of Internal Revenue (BIR) last year allow all players to operate on a level playing field.

"For the new law to be absolute fair and just, the government must also nullify the revenue regulations reclassifying new brands in 2003 and imposing on them higher taxes while leaving existing brands untouched," the company argued.

British American Tobacco pointed out that the Philippines would continue to offer cheap cigarettes if the excise tax scheme evolves into less number of tiers in order to simplify the tax administration while improving both government revenues and market value.

"Currently, the Philippines has one of the lowest prices of cigarettes. If the gap in tax rates between the highest tax category of P13.4 per pack and the lowest category of P1.12 per pack remains wide at 12 times as in the present tax structure, the prices of cigarettes will continue to be low, the group added.

Republic Act 8240 otherwise known as the Comprehensive Tax Reform Program of 1997 changed the excise taxation on tobacco and alcohol products to specific system from value-based. It imposed a four-tier specific system based on the retail price wherein cigarettes with a net retail price of less than P5 per pack are levied P1.12 per pack while a pack worth between P5 and P6.50 is charged another P5.60. On the other hand, cigarettes with a net retail price of between P6.5 and P10 per pack are levied P8.96 while those above P10 are taxed P13.44. buy online cigarettes
